Recyclable garbage ①...twice a month

Empty the contents and rinse them out .

●Cans (aluminum 、 steel)

- ※Put the aluminum cans in the green net bag.
- ※Put the steel cans in the blue net bag.
- ※Remove the plastic lid on spray cans, and punch a hole in the can to remove excess gas. (It is not necessary to rinse spray cans .)
- ※Cans more than 30cm in diameter are "Recyclable garbage ②" .

●PET (plastic) bottles (beverage, alcohol, soy sauce, sweet cooking rice wine bottles)

- ※Lids and labels are "Burnable garbage".
- ※Put the PET bottles in the yellowish green net bag.
- ※Do not squash PET bottles for recycling.
- ※PET bottles that have a label CANNOT be recycled.
- ※PET bottles that are dirty CANNOT be recycled .

●Glass bottles

- ※Lids are "Burnable garbage" .
- ※It is not necessary to remove the label .
- ※Separate the bottles according to glass color (clear, brown and other).
- ※Do not include glassware . (If you throw out glassware with the glass bottles they CANNOT be recycled.)
